Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 20-21, 49-56 and 58-60 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Salomaa et al.

See the appropriate paragraph of the 9/8/04 Office action.

Response to Arguments

Applicant's have filed no arguments.

The references Pfost et al. and Marquiss cited in the 9/29/05 PTOL-1449 are duplicative in teaching to that of Salomaa et al. above. Specifically, Pfost et al. and Marquiss teach a conduit(21) containing plunger(27) that control the fluid in attached the pipette tip. The plunger(27) is controlled by a servo controlled actuator(29).

This is a continuation of applicant's earlier Application No. 10/026,918. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1743

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
